SUMMARY

Data Analyst & BI Consultant with 5 years' experience, specialised in Power BI and Microsoft Fabric. From data collection to delivery: reliable, decision-focused dashboards, automated data flows and reporting, and BI migrations from Cognos to Power BI / Fabric. Consistent goal: turning data into measurable decisions (payroll errors cut by 99%, reporting time reduced from several days to instant).

TECHNICAL SKILLS

BI & data visualisation — Power BI (Desktop & Service, DAX, RLS, Report Builder), IBM Cognos Analytics

Data & modelling — Microsoft Fabric (Lakehouse, OneLake, Dataflows Gen2, PySpark), star schema / medallion architecture

Relational database management systems — SQL Server, PostgreSQL, advanced T-SQL (CTEs, subqueries, window functions), Snowflake

Automation & integration — VBA, REST API, Power Query

DevOps & methods — Git/GitHub, Azure DevOps (CI/CD), Agile/Scrum

PROFESSIONAL EXPERIENCE

Power BI Analyst

March 2025 – Present

Voxens Madagascar (for Stelliant, France) • Permanent

- **Migrated ~20 client reports** from IBM Cognos Analytics to Power BI Report Builder, in batches and with zero service disruption (T-SQL, SQL).
- **Automated 30+ recurring reports** and built reliable, scalable data models on Microsoft Fabric (medallion architecture, PySpark, T-SQL).
- Industrialised data preparation (Snowflake): sourcing, cleansing, transformation and modelling (DAX, PySpark).
- Delivered KPI dashboards (Power BI Service) for 3 audiences — executive, business, technical: revenue and case tracking ("Expertise") and internal steering for a major insurance account.
- Worked within a BI team of 5 analysts (1 BI lead); ran business workshops and coordinated operational teams.

BI Data Analyst / VBA Developer

January 2024 – March 2025

ARBI • Freelance

- **Cut payroll errors by 99%** after calibrating calculation rules, and reduced data access time from 48–72h to instant via an automated HR dashboard.
- Built the Power BI model (DAX, business rules) and secured access by department and user (RLS).
- Delivered HR analytics: time-to-hire, application-to-hire conversion, turnover, absenteeism, internal mobility, gender pay gap, payroll claims.
- Ran regular workshops with HR teams to maintain and extend reports and KPIs.

BI Reporting Analyst

January 2021 – January 2024

Webhelp Madagascar • Permanent

- **Built 7 dashboards and dozens of reports** across multiple client projects (WorldRemit, Sendwave, Zity, Zenpark, Iziwork, Trusk, Glide).
- Centralised multi-source data (Salesforce, Zendesk, Talkdesk, Amazon Connect, Jira) via SQL, modelled as a star schema in PostgreSQL.
- Automated weekly, monthly and annual reporting: handling time, hourly productivity, service quality, absenteeism, revenue per transaction and per hour (DAX, SQL).

Customer Advisor

June 2020 – January 2021

Webhelp / Orange Technical Support (France) • Permanent

- Provided technical support to customers (fibre, Wi-Fi, hardware) — first front-line experience before specialising in data.

EDUCATION

Bachelor's in Computer Science — Networks & Systems • E-media, Madagascar • 2016–2019

CERTIFICATIONS

Udemy (2025) — Power BI, complete course • Microsoft Fabric, versioning & deployment pipelines (Git, Azure DevOps, CI/CD)

LANGUAGES

Malagasy (native) • French (fluent) • English (professional, technical)
